

Materials (1)

Materials are the things that objects are made from. Materials can be in one of two groups.

1. Man-made- e.g. glass, plastic.
2. Natural- e.g. sand, wood, leaves.

Our classroom contains different materials:-

Try to think of 10 examples for each!

1. Wood e.g. desk
2. glass
3. rubber
4. metal
5. plastic
6. fabric
7. paper
8. plaster

Now for each category, try to think of adjectives that give lots of extra information.

E.g.

1. wood- hard, strong, grained, polished
2. glass- clear, strong, cold
3. rubber-
4. metal-
5. plastic-
6. fabric-
7. paper-
8. plaster-
